

MANAGER CARD CHANGES

from 01 October 2018

DO YOU OWN THIS CARD ALREADY?

YES

From **01 Jan 2019** you can no longer renew this card in its current format. You will need to meet the new criteria, as shown below.

What if my card expires between now and 31 Dec 2018?

You can renew your card in the existing format. However, when your card expires in three years' time you will need to meet the requirements outlined below before you can renew.

Will I have to pay extra for the new style of card?

If you already hold this card you will only be charged at the Renewal rates, regardless of whether you renew it before or after the **31 December 2018**.

NO

From **01 October 2018** new qualification requirements come into effect for all new applications for this card.

What are the new requirements?

Applicants for the new ECS managers card will have to hold ONE of the following health and safety qualifications:

- Construction Skills (CITB) Site Supervisor Safety Training Scheme (SSSTS)
- IOSH Managing Safely in Construction
- CITB Site Management Safety Training Scheme (SMSTS)
- CCNSG Safety Passport - Supervising / Leading a team Safety Course

These qualifications are accepted as a 3-year exemption from the ECS HS&E Assessment. If you have gained one of these qualifications within the last three years, you will not need to sit the ECS assessment separately when you apply for the new style of card, until the next point of renewal.

The card style and colour will remain unchanged
